

Orchestra VSL-Suite-Presets

Main-Presets for all instruments in your orchestra with the VSL Suite Effects - as a good starting point for you.

Presets for 3 different Orchestras

- Orchestra Set 1 for Solo Instruments
- Orchestra Set 2 for Chamber Ensembles
- Orchestra Set 3 for Symphonic Orchestras

Preset-Names Brass

OrchSet1EQTrpt1	OrchSet1PanTrpt1
OrchSet1EQTrpt2	OrchSet1PanTrpt2
OrchSet1EQHorn	OrchSet1PanHorn
OrchSet1EQTrbne	OrchSet1PanTrbne
OrchSet1EQTuba	OrchSet1PanTuba
OrchSet1ComBrSum	OrchSet1EQDpth3
	OrchSet1ConDpth3

Preset-Names Woodw.

OrchSet1EQFlute	OrchSet1PanFlute
OrchSet1EQOboe	OrchSet1PanOboe
OrchSet1EQEHorn	OrchSet1PanEHorn
OrchSet1EQClar	OrchSet1PanClar
OrchSet1EQBssn	OrchSet1PanBssn
OrchSet1ComWwSum	OrchSet1EQDpth2
	OrchSet1ConDpth2

Preset-Names Strings

OrchSet1EQViol1	OrchSet1PanViol1
OrchSet1EQViol2	OrchSet1PanViol2
OrchSet1EQViola	OrchSet1PanViola
OrchSet1EQCello	OrchSet1PanCello
OrchSet1EQCBss	OrchSet1PanCBss
OrchSet1EQDpth1	OrchSet1ConDpth1

- Create a mixer (as shown here) within your DAW or within Vienna-Ensemble Pro
- Insert the VSL-Suite Effects
- Load the corresponding OrchestraSet Presets
- ... and listen to the concert

Orchestra VSL-Suite-Presets

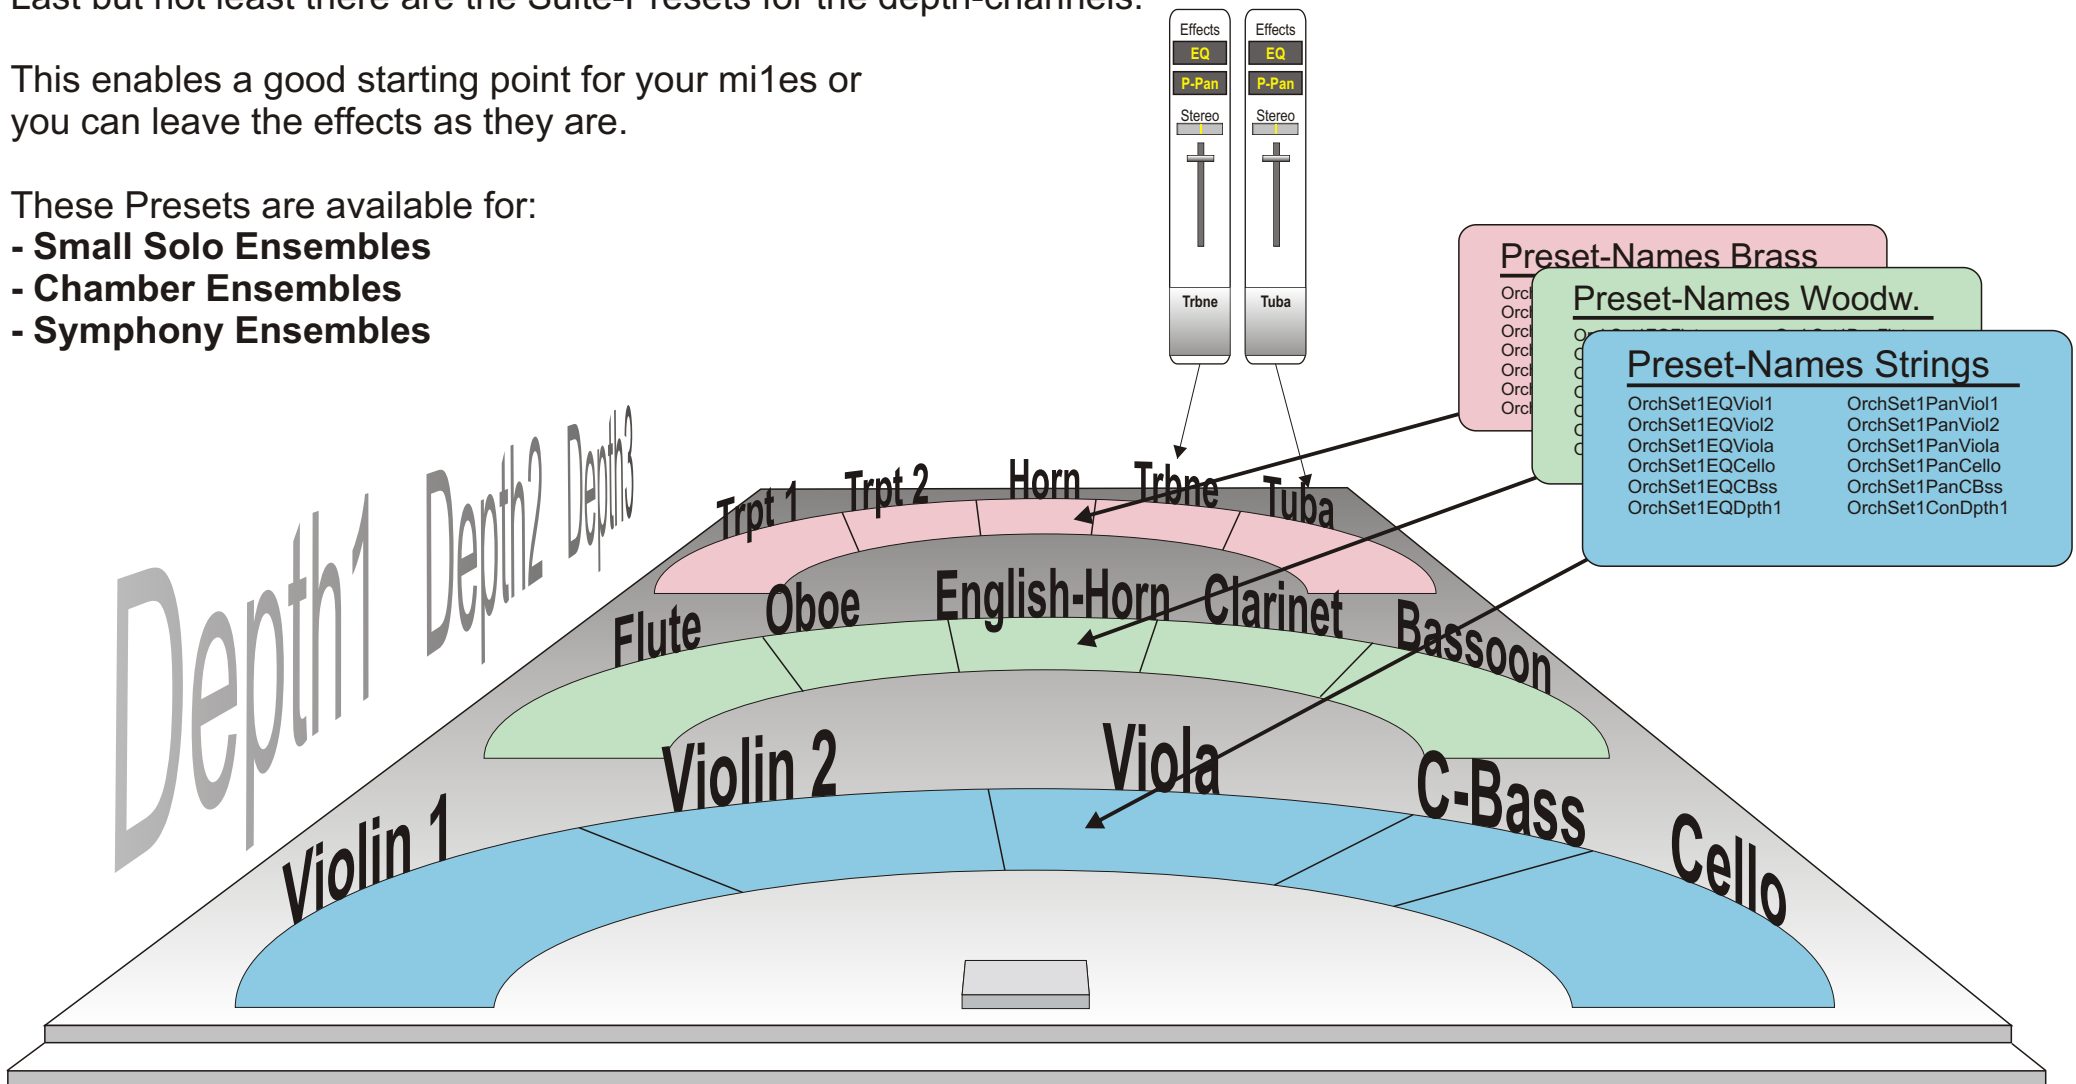

For each instrument on the virtual stage below you will get the „Panning - Preset” and the „Equalizer - Preset” so that the feeling of a correct distance appears together with the convolution reverb.

Each instrument section will get the effects in its sum channel.
Last but not least there are the Suite-Presets for the depth-channels.

This enables a good starting point for your mixes or you can leave the effects as they are.

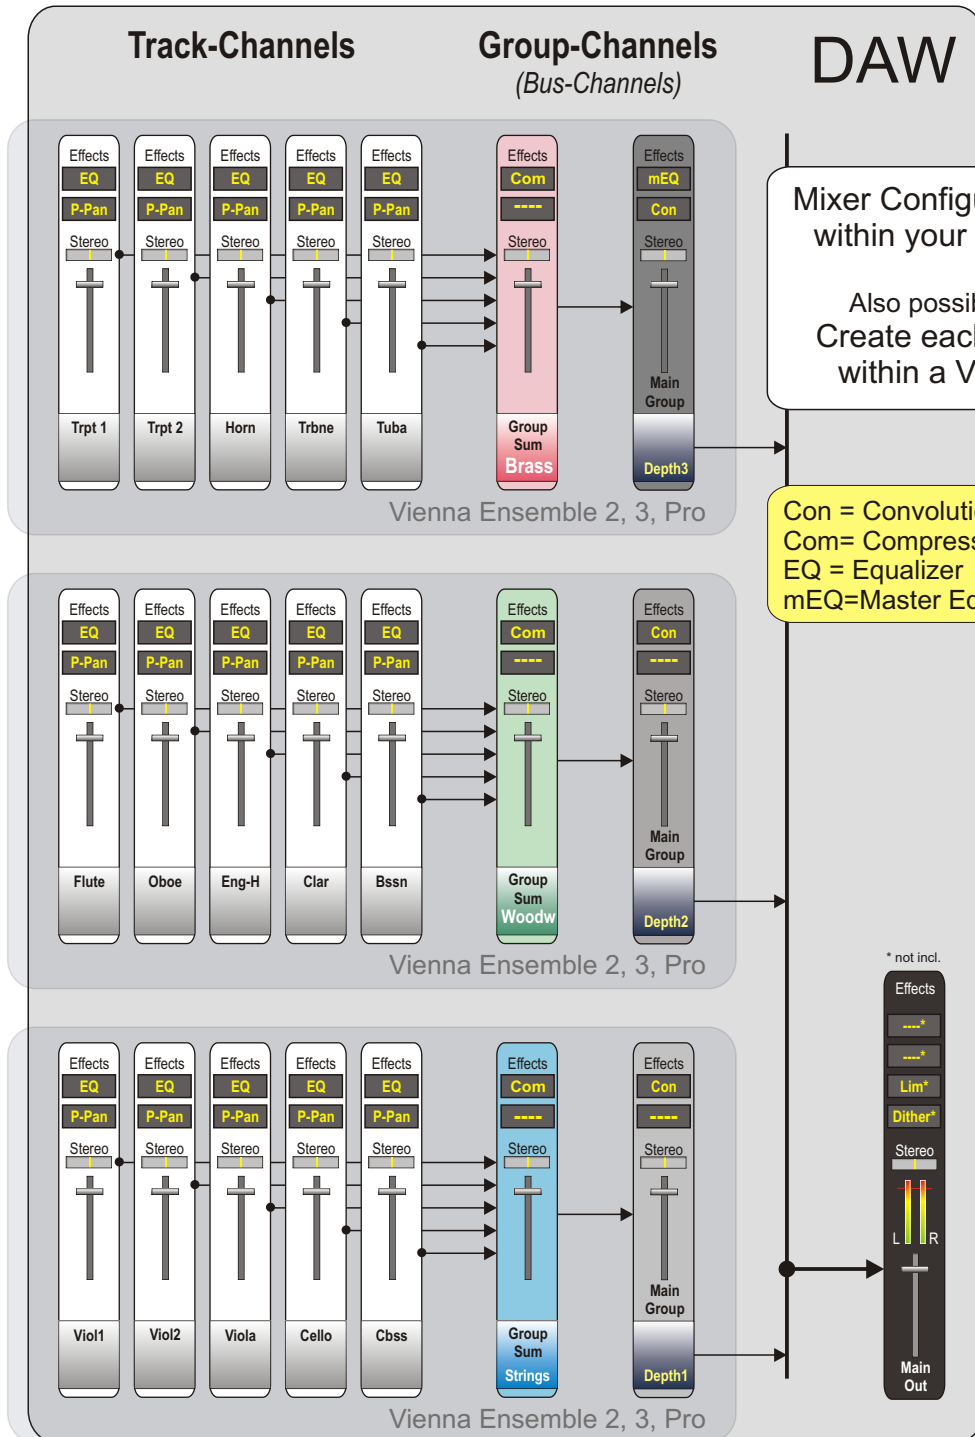

These Presets are available for:

- **Small Solo Ensembles**
- **Chamber Ensembles**
- **Symphony Ensembles**

Orchestra VSL-Suite-Preset 1

OrchSet3EQCello	OrchSet3PanCello
OrchSet3EQCbss	OrchSet3PanCbss
OrchSet3ComStrSum	OrchSet3ConDpth1

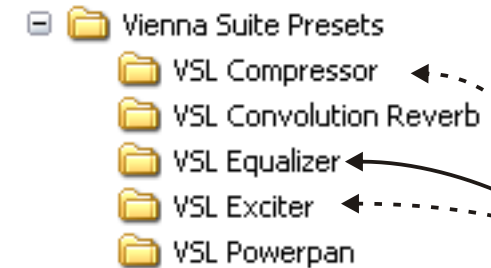

How to install the Presets

This tells us the Suite Manual:

How to be sure whether you've found the correct folder or not?

1. Open a Suite EQ Effect in your DAW. (Logic, Cubase, Sonar, ProTools etc.)
2. Make some adjustments.
3. **Save** this EQ-settings with the name «Test»
4. Check with **Load** whether you can load it or not.
5. Close the DAW and search now the folder with the file «Test»:

You only can make out the folder(s) when you once saved an own preset.

So in minimum you should find folder „VSL Equalizer“.

6. Copy all the OrchSet-Presets into the corresponding folders.

The default path for the Preset Folder is:

Windows XP:

Documents and Settings/[YourName]/Application Data/Vienna Suite Presets/[PluginName]

[YourName] is the name you're logged in with at the computer.

Windows Vista:

[YourName]/Appdata/Roaming/Vienna Suite Presets/[PluginName]

[YourName] is the name you're logged in with at the computer.

OS X: [Macintosh HD]/Shared Items/Vienna Suite Presets/[PluginName]

[Macintosh HD] is the name of the haddisk the operating system is installed on.

Der voreingestellte Ordner für Ihre Vienna Suite-Presets ist:

Windows XP:

Dokumente und Einstellungen/[Name]/Anwendungsdaten/Vienna Suite Presets/[PluginName]

Windows Vista:

[Name]/Appdata/Roaming/Vienna Suite Presets/[PluginName]

[Name] ist jener Name, unter dem Sie auf dem Computer angemeldet sind.

OS X: [Macintosh HD]/Shared Items/Vienna Suite Presets/[PluginName]

[Macintosh HD] ist der Name der Festplatte, auf dem das Betriebssystem installiert ist.
